

# Controls and compliance checklist

To complete the controls assessment checklist, refer to the information provided in the [scope, goals, and risk assessment report](#). For more details about each control, including the type and purpose, refer to the [control categories](#) document.

Then, select “yes” or “no” to answer the question: *Does Botium Toys currently have this control in place?*

## Controls assessment checklist

| Yes                                 | No                                  | Control   |
|-------------------------------------|-------------------------------------|---|
| <input type="checkbox"/>            | <input checked="" type="checkbox"/> | Least Privilege   |
| <input type="checkbox"/>            | <input checked="" type="checkbox"/> | Disaster recovery plans   |
| <input checked="" type="checkbox"/> | <input type="checkbox"/>            | Password policies   |
| <input type="checkbox"/>            | <input checked="" type="checkbox"/> | Separation of duties  |
| <input checked="" type="checkbox"/> | <input type="checkbox"/>            | Firewall  |
| <input type="checkbox"/>            | <input checked="" type="checkbox"/> | Intrusion detection system (IDS)                                    |
| <input type="checkbox"/>            | <input checked="" type="checkbox"/> | Backups   |
| <input checked="" type="checkbox"/> | <input type="checkbox"/>            | Antivirus software  |
| <input type="checkbox"/>            | <input checked="" type="checkbox"/> | Manual monitoring, maintenance, and intervention for legacy systems |
| <input type="checkbox"/>            | <input checked="" type="checkbox"/> | Encryption  |
| <input type="checkbox"/>            | <input checked="" type="checkbox"/> | Password management system  |
| <input checked="" type="checkbox"/> | <input type="checkbox"/>            | Locks (offices, storefront, warehouse)                              |
| <input checked="" type="checkbox"/> | <input type="checkbox"/>            | Closed-circuit television (CCTV) surveillance                       |

- ☒ ☐ Fire detection/prevention (fire alarm, sprinkler system, etc.)

---

To complete the compliance checklist, refer to the information provided in the [scope, goals, and risk assessment report](#). For more details about each compliance regulation, review the [controls, frameworks, and compliance](#) reading.

Then, select “yes” or “no” to answer the question: *Does Botium Toys currently adhere to this compliance best practice?*

### Compliance checklist

#### Payment Card Industry Data Security Standard (PCI DSS)

| Yes                      | No                                  | Best practice  |
|--------------------------|-------------------------------------|--|
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Only authorized users have access to customers’ credit card information.                                     |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Credit card information is stored, accepted, processed, and transmitted internally, in a secure environment. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Implement data encryption procedures to better secure credit card transaction touchpoints and data.          |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Adopt secure password management policies.   |

#### General Data Protection Regulation (GDPR)

| Yes                                 | No                       | Best practice   |
|-------------------------------------|--------------------------|---|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | E.U. customers’ data is kept private/secured.   |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | There is a plan in place to notify E.U. customers within 72 hours if their data is compromised/there is a breach. |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Ensure data is properly classified and inventoried.   |

- |                                     |                          |   |
|-------------------------------------|--------------------------|---|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Enforce privacy policies, procedures, and processes to properly document and maintain data. |
|-------------------------------------|--------------------------|---|

### System and Organizations Controls (SOC type 1, SOC type 2)

| Yes                                 | No                                  | Best practice  |
|-------------------------------------|-------------------------------------|--|
| <input type="checkbox"/>            | <input type="checkbox"/>            | User access policies are established.  |
| <input type="checkbox"/>            | <input checked="" type="checkbox"/> | Sensitive data (PII/SPII) is confidential/private.   |
| <input checked="" type="checkbox"/> | <input type="checkbox"/>            | Data integrity ensures the data is consistent, complete, accurate, and has been validated. |
| <input type="checkbox"/>            | <input checked="" type="checkbox"/> | Data is available to individuals authorized to access it.                                  |

---

This section is *optional* and can be used to provide a summary of recommendations to the IT manager regarding which controls and/or compliance best practices Botium Toys needs to implement, based on the risk posed if not implemented in a timely manner.

**Recommendations (optional):** In this section, provide recommendations, related to controls and/or compliance needs, that your IT manager could communicate to stakeholders to reduce risks to assets and improve Botium Toys' security posture.

1. Principle of Least Privilege (PoLP) (OWASP) should be applied to access control. Access to resources should be limited to staff and vendors who are authorized. Additionally, PoLP should be applied to PII/SPII access.
2. Security and risk management (CISSP domain) of business continuity, a disaster readiness plan should be created, communicated and practiced. Additionally, Botinum should begin backing up data at regular intervals.
3. Password policies are extant but not stringent. Botium toys should come up with a strong password policy and be able to enforce and manage this policy..
4. Separation of duties (OWASP) should be applied to access control. This ensures that one staff member with many privileges does not misuse the system.

5. An Intrusion Detection System (Defence in Depth - OWASP) should be used.
6. Legacy systems should be routinely monitored as per policy required intervals.
7. Encryption should be used to secure credit card details.
